

Share4Mobility

Public Tenders
February 2023

Share4Mobility

National Company

Different local stakeholders/providers ...

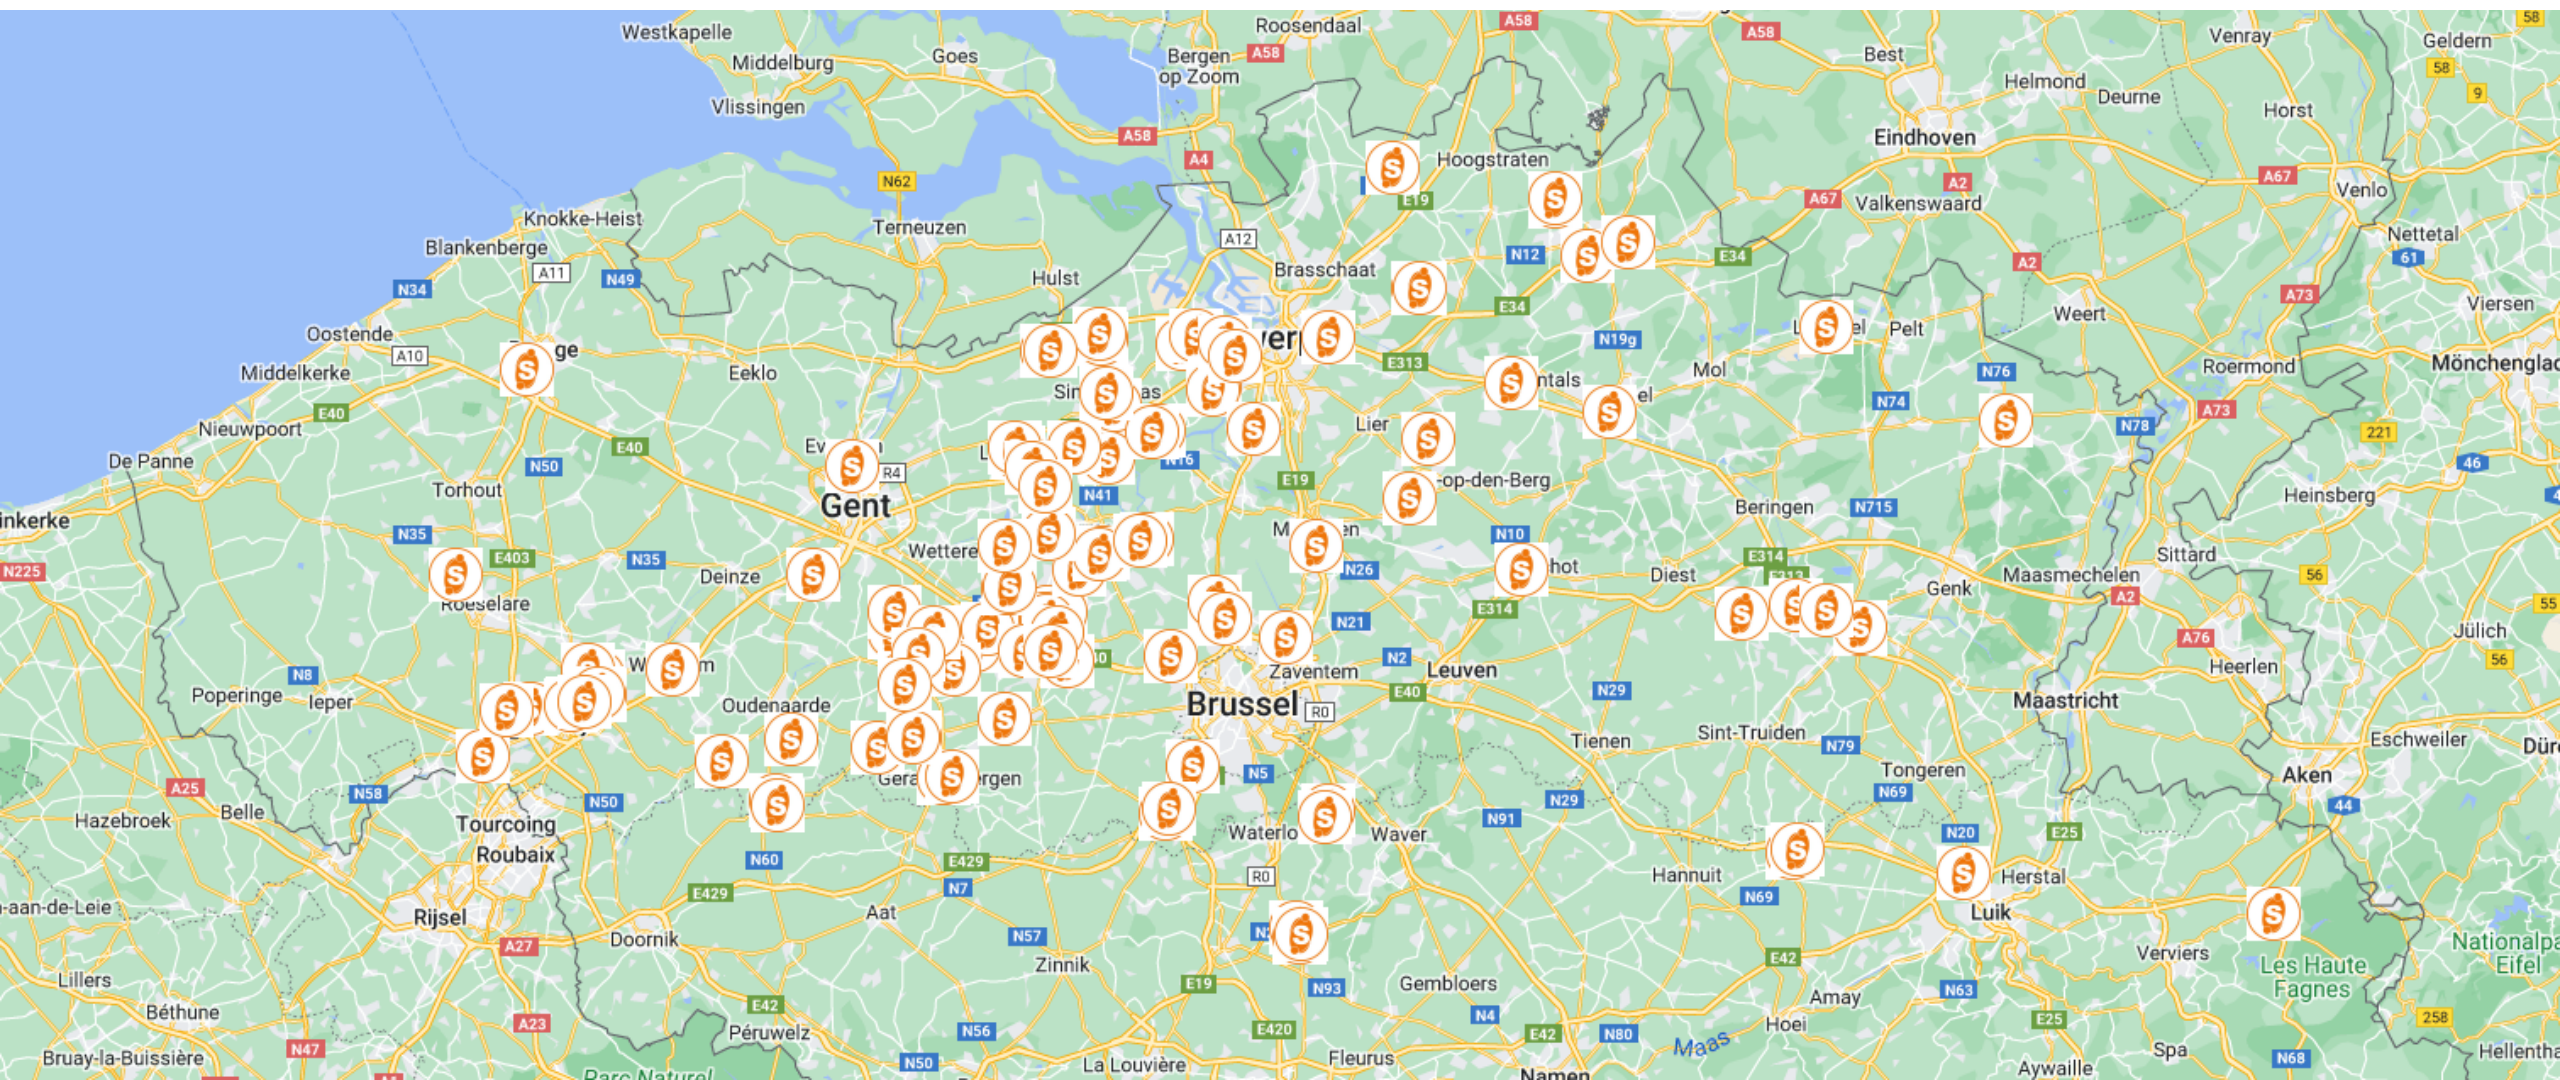

- › Share know-how
- › Centralize administration and follow-up
- › Spread investments
- › Combine **national** relevance with **local** service

Interoperability

Inside a single platform

... for one national user offer

Share4Mobility

Principal

Goal = Electric vehicle sharing between:

- Employees
- Private users
- Companies and projects

System principle

- Station based, closed loop:
- Reservation / Online Planning
- Smartphone APP

Drivers for the local authority

- Offer a sustainable mobility solution to your employees
- Sharing the cost of your own mobility with external users
- Promote the switch to electric and shared mobility among citizens

Market Positioning

Big cities

Free Float (Antwerpen – Gent – Brussel)
Station Based

Small Cities

Station Based

Rural municipalities

Station Based

Do's & Don'ts
