Updating our parking-regulation

In summer 2024 we will update our parking-regulation on the ratio 1:4 to a new smarter ratio. It's a first step to implementing the MMMM (calculation tool)

Reconider existing projects

We negotiate in existing projects for new way of fullfilling to shared mobility needs. We will try out some more specific solutions by offering a more broad SM-offer.

Practice for a new framework

Workshop MMMM with colleagues

On our halfyearly 'Ruimtesafari' we organized the MMMM-workshop for colleagues with different backgrounds. It's provides good discussion and awarreness of that 'only put down soms shared cars' is not the solution

Lunetten local mobility fund

We will start a experiment with a fund for two social housing projects next to each other. Both project will put money in a fund, and the City will organize the shared mobility mix
