Leuven tests shared bikes and cars at community hubs

In the coming year, the **City of Leuven** will set up their pop-up mobility hubs 'Hoppinpoints' at three Leuven neighborhood centers. Visitors to the centers can use the shared (cargo) bikes and cars for free.

The goal? To remove possible barriers and further stimulate shared mobility.

Take a sneak peek at our Digital Participatory Platform in the making

HAW Hamburg is developing an innovative **Digital Participatory Platform** where users will get educational resources, expert insights, and a community space to share experiences and connect over shared mobility hubs.

Do you want to take a small look at what is getting developed?

Enhancing Shared Mobility Hubs: Insights from ShareDiMobiHub Academy

ShareDiMobiHub brought together European cities and regions together for a 2-day Academy. This event focused on two important topics: making sure everyone can use shared and digital mobility hubs, and integrating these hubs into real estate.

Another Academy will be held next year. Do you want to know what you are missing?

Planning to deploy public shared bicycles? Read Brussels analysis beforehand!

Public bicycles as the fourth pillar of public transport in Brussels (metro, tram, bus and bicycle). For that reason, Brussels public authorities and operators organise this study to devise a more attractive public bicycle service and an appropriate governance.

What are the pitfalls? What can be improved? What is actually working? [Read all that here](#)

Paper on shared mobility mode substitution patterns, trip and user characteristics

Based on the [eHUBS project](#), this survey-based research suggested that shared vehicles were about as or more likely to substitute public transport, cycling and walking, as private car trips.
