POWERING FLUCTUO

OUR PRODUCTS

citydive

City Dive allows users to make data-driven decisions based on the big picture. Every day, we analyze over 2.6 million trips.

delta

Delta provides both quantitative & geo-datasets to identify hotspots for shared mobility in specific cities. Ideal for informing decision-making for operators, urban planning agencies and cities.

bridge

Bridge assembles real-time information from shared mobility services across the world, available through a single, easy-to-use API.

citydive

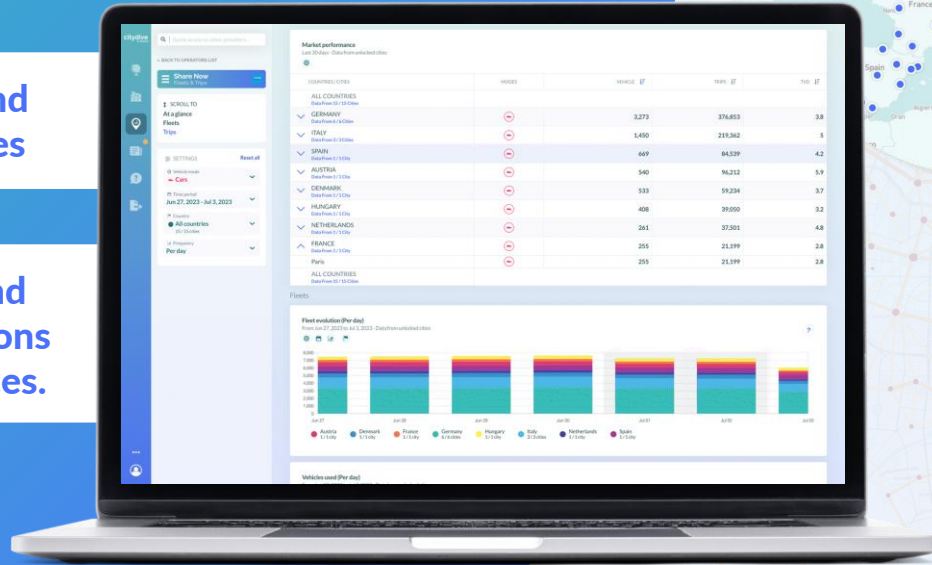

1 PLATFORM

Monitor fleets and trips in 200+ cities

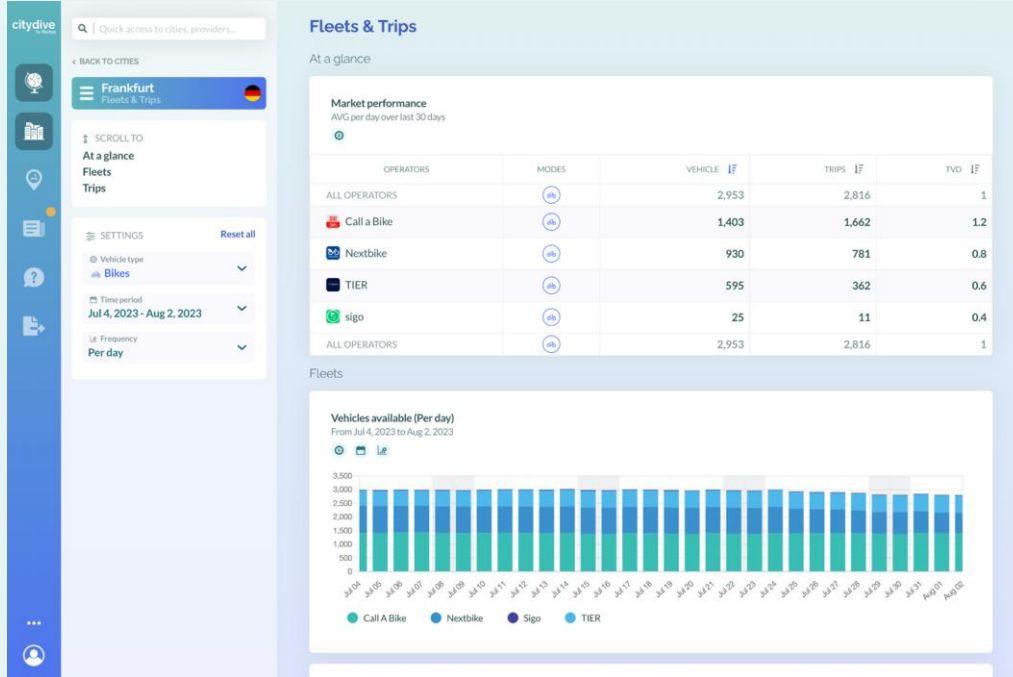

Analyse usage and optimize operations from 300+ services.

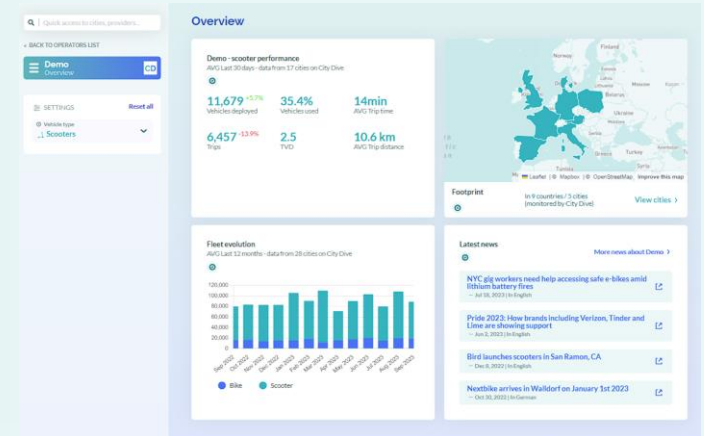

ANALYZE SHARED MOBILITY ACROSS THE WORLD

City-level market information & trends
