

REDII Ports

Renewable Energy Development and Intelligent Implementation in Ports

www.interregnorthsea.eu/redii-ports

To better exploit local resources for a technically feasible and economically affordable generation, storage and consumption of cleaner energy like:

- Biodiesel
- Electricity (by tide, wave, solar- and wind power)
- Hydrogen, Ammonia & Methanol

Making use of a three-step roadmap moving from resources to production and storage in ports to the market.
