

#REDIIPorts

REDII Ports

*Renewable Energy Development and
Intelligent Implementation in Ports*

REDII Ports

Interreg
North Sea

Co-funded by
the European Union

To better exploit local resources for a technically feasible and economically affordable generation, storage and consumption of cleaner energy like:

- Biodiesel
- Electricity (tide, wave, solar & wind power)
- Hydrogen
- Ammonia
- Methanol

Making use of a three step roadmap moving from resources to production and storage in ports to the market.

Lead Partner:
