Podcast: The Low Car Diet

<https://www.interregnorthsea.eu/sn2/the-low-car-diet>

A set of shared mobility icons has been developed in the SHARE-North project. These icons help to increase the recognition of shared mobility and its main forms. They may be used in signage, at mobihubs, on websites and in information packages. The icons are free for sharing and have been made available in Noun Project, a free icon gallery (www.thenounproject.com). The icons are on their way to becoming the European standard for shared mobility.

-  CARSHARING
-  BIKESHARING
-  SHARED MICROMOBILITY
-  RIDESHARING
-  RIDESOURCING
-  SHARED SPACE

The SHARE-North icon gallery of shared mobility is open source and free to use.
